

# Too Young To Be Married

The Hollies

She wakes up early every morning  
She get up long before the sunshine  
Greets the milkman who's still yawning  
And reads the paper for a short time  
Calls the kids "Get out of bed"  
They never hear a word she says

Husband stands to leave the table  
She says "I hope you have a good day"  
He thinks "One day soon as I'm able  
I'll get a job where I get good pay."

They find it hard to make ends meet  
But they don't mention it because they have each other  
An love is free while they're supposed to be ...

Too young to be married  
Too young to be free  
Too young to be married  
But what could they do, they were going to have a baby

After the kids have had their breakfast  
Now they're off to get some schooling  
She cleans the house and makes the beds  
She starts to dreams but knows she's fooling

She swears one day she'll stay in bed  
But for now she knows she's got to keep on working  
'Cos round and round inside her head  
She hears the words her mother said ...

Too young to be married  
Too young to be free  
Too young to be married  
But what could they do, they were going to have a baby

Too young to be married  
Too young to be free  
Too young to be married  
But what could they do?
