

# This Annihilation

## Holocaust

Stare  
Like a china doll  
Now the sky will fall down upon us all

Can you fill those wasted years?  
Now it's time to shed those tears  
Hard man

Death  
Flying in the night  
Generating light  
On it's fatal flight

Desperation looms above your head  
Silent violence as the lights flash red

Die  
For the powers that be  
For men who couldn't see their own insanity

Now the night will follow day  
Is it right to end our lives this way?
