

Society, Anxiety

Holy Mother

A man of God they say can sense
The evil idol - you
Never bow to the false prophet
Or pray to any statue
Carry your own beliefs in God
And give the gifts receive all pleasure
Ah, pleasure

Society, Anxiety
let our children roam
Taken back by world events
and Television show
Anxiety, Society
don't lead our teens to war
The Middle East has built a beast
and we plan to shut the door
Don't plant the seed of despair in our children
Just shine the light of freedom
and lead our spirits home

Can see through desert storms
Fast for 40 days
Shine the light on evening battles
The Jews are left to mourn
For religion, it's worth the fight
Premonitions to expedite
We'll find the time to compromise
Or lead it all away

Society, Anxiety
let our children roam
The Middle East has built the beast
and we plan to shut the door
Society, Anxiety
don't lead our teens to war
There's a war breaking out
there's a war breaking out!
Society, Anxiety
let our children roam
oh let them roam, oh let them roam
Society, Anxiety
let the children roam
We plan to shut the door,
We plan to shut the door
