

One LP down and I'm still driving this 306
I thought by now I'd upgrade, put it on my plastics
Yeah, that's right, I got more than one
Oh fuck it, let's go have some fun
One record down and I'm riding in this piece of shit
I thought by now I'd upgrade, put it on my plastics
Yeah, that's right, I got more than one
Oh fuck it, let's go have some fun

Five gears, five doors, a tape player
Now at the time I thought it couldn't get better
You probably heard me when I drove right past
Windows down, "Money Trees" on full blast
She's no Merc, she's no Jag, or a Beamer
But we all know that we've got to start somewhere
And I'm just happy getting A to B
Kinda sucky having mum drive me (I love you)
Now I know there is an age gap
But I'm pretty sure that we can see past that
I don't care if there's a problem with your body
'Cause it's what goes on inside that matters to me
Don't I know you like to drink up (yeah)
You could guzzle down that juice and never wake up
But I know deep down you wanna make me happy
It's all you ever wanna do

Five gears, five doors, a tape player
Now at the time I thought (It don't get better)
What did I know, I was seventeen
I was young, I only had my dreams
It felt good to be out and get with it
I'm getting outta here and this is my ticket
You probably knew me more than anyone here
Well you were pretty much my teenage years

Will take work to make work what we got
Will take love and affection, yeah a lot
Will take blood, will take sweat, will take tears
Will take a ton of shit over the years
Will take knocks, will take bruises and beats
You'd take my first time on your backseats
And you thought your days were done (nah)
Fuck it, let's go have some fun
Nah, fuck it, let's go have some fun
And you thought your days were done
Nah, fuck it, let's go have some fun
