

# The Night

Honne

Spend the night and I will make it worth your while  
Let's build a life that we can both live out in style  
Come into the light and don't you think to run a mile  
If you spend the night with me, I will make it worth your while

Invest time in me  
Cause I am risk free  
We can make this work  
That's my guarantee  
Show me how to love you  
So we can go far  
We can make it work  
Yeah we can make it

If your love is with me, you will be my baby  
Oh yes you will, Oh yes you will  
And if your lips are near me, you will be my baby  
Oh yes you will, Oh yes you will

Spend the night and we will make it worth the while  
Let's plan that life that and we can give this thing a trial  
Now lift up your head, won't you let me see that smile  
If you spend the night with me, I will make it worth your while

Invest time in me  
Cause I am risk free  
We can make this work  
That's my guarantee  
Show me how to love you  
So we can go far  
We can make it work  
Girl we can make it

If your love is with me, you will be my baby  
Oh yes you will, Oh yes you will  
And if your lips are near me, you will be my baby  
Oh yes you will, Oh yes you will

Spend the night and I will make it worth your while  
Let's build a life that we can both live out in style  
Come into the light and don't you think to run a mile  
If you spend the night with me, I will make it worth your while

If your love is with me, you will be my baby  
Oh yes you will, Oh yes you will  
If your lips are near me, you will be my baby  
Oh yes you will, Oh yes you will  
If your love is with me, you will be my baby  
Oh yes you will, Oh yes you will  
If your lips are near me, you will be my baby  
Oh yes you will, Oh yes you will□
