

# Here Comes Trouble

Honor Society

She's a pistol pointed at me  
Smoking from her head to her feet  
Packing the heat, lethal with a license to kill  
Stilettos rippin' open the street  
She's a heart breaker like a masterpiece  
But she'd be lookin' even better with me

She's the baddest girl I've ever seen  
How could something that's so wrong be exactly what I need?

Here comes trouble again, I better act carefully  
She knows what she's doing to me and she makes it look so easy  
Here comes trouble again, my heart tells me to leave  
But a girl like that's on a different level  
Here comes trouble, trouble, trouble

She's a razor, she's cuttin' me deep  
Let me, let me repeat  
She's like a pistol pointed at me  
Smoking from her head to her feet  
She's a lifetaker, double agent in heels  
But I love the way she's making me feel

She's the baddest girl I've ever seen  
It's so hard to walk away with her hands all over me

Here comes trouble again, I better act carefully  
She knows what she's doing to me and she makes it look so easy  
Here comes trouble again, my heart tells me to leave  
But a girl like that's on a different level  
Here comes trouble

She's gaining on me faster and faster  
She's gaining on me faster and faster  
She's gaining on me faster and faster  
She's gaining on me faster and faster  
She's gaining on me

She's the baddest girl I've ever seen  
How could something that's so wrong be exactly what I need?

Here comes trouble again, I better act carefully  
She knows what she's doing to me and she makes it look so easy  
Here comes trouble again, my heart tells me to leave  
But a girl like that's on a different level  
Here comes trouble

Here comes trouble again, I better act carefully  
She knows what she's doing to me and she makes it look so easy  
Here comes trouble again, my heart tells me to leave  
But a girl like that, she's a different level  
Here comes trouble, trouble, trouble
