

Ready for You

Hoobastank

Asus2

Make me feel it's useless

E

Gsus2

When in fact it's you that need to have me near

B

So now

A

Keep me at safe distance

E

G

And with a little persistence I'll make it crystal clear

B

Asus2

I'll be around

E

Only if you want me to

G

Be there by your side

Asus2

B

I'm ready for you

So don't be afraid

Cause I know what you're going through

So when you think it's time

I'm ready for you

Now you seem to be content with

A one sided friendship with you I've got to chase

Slow down so I can smell the roses

But the road you chose is crooked and unpaved

My tires are spinning but to no avail

That I'll be around

Only if you want me to

Be there by your side

I'm ready for you

Don't be afraid

Cause I know what you're going through

So when you think it's time

I'm ready for you

I'm ready for you

That I'll be around

Only if you want me to

Be there by your side

I'm ready for you

I'll be around

Cause I know what you're going through

So when you think it's time

I'm ready for you
