## Karla With A K

## The Hooters

Freedom has its ups and downs
Walk the streets of lonesome town
Try to find some company
Somebody who will talk to me

We'll find it someday
There's no reason to cry for days gone by
Oh, Karla, we can make it if we try

Hurricanes and Cadillacs
They run you down and don't look back
Oh where can my salvation be
A tender touch to comfort me

But I'm here all alone a wind blows home We'll find it someday
There's no reason to cry for days gone by Oh, Karla, we can make it if we try

No matter how the wind may blow, you belong to me Like the mountains to the sky And you know when I close my eyes, you're the one I see Oh, Karla, we can make it if we try

Old man river's on the rise Wash the circles from my eyes Hurricane is on its way Oh you can call it Karla, Karla with a K

No matter how the wind may blow, you belong to me Like the mountains to the sky And you know when I close my eyes, you're the one I see Oh, Karla we can make it if we try

Oh, Karla we can make it if we try C'mon, Karla we can make it if we try Oh, Karla we can make it if we try
