

I'm trying to say to you how you will rise
Like a child freezed in space and time
You'll find the way to nowhere

I'm here, but don't mind
Do what you like
I don't want to see no damn brakes
Not this time

Clearer
Nine days searching for the crime

So kill the lights one last time
Let's try as we used to do in paradise

Maybe with wrong words
I'm trying to give it all away
And I take your hands again and see
They're deeply compromised

Together
We'll find the reason why it ends
See it's clearer
You're meant to be my only friend

So kill the lights one last time
Let's try as we used to do in paradise

Maybe with wrong words
I'm trying to give it all away
And I take your hands again and see
They're deeply compromised
Maybe I'm not sure
But that voice is running through my head
Don't let me drown again and see
My breath that goes away

It's not easy to be there
When it dies in your hands
