

# Devil's Concubine

Hopesfall

Brought new attention for the media  
it's like seeing pretty new burdens  
with a musket grin  
we can trigger your favourite sin  
like seeking new burdens  
for lazy guards in watch towers

bring us to courthouse control  
dental records prove  
only if our tongues are cut off  
then we will be less of a disease

we found religion  
in splitting teeth at equivocate ideals  
of the virtue of a man  
a simple tithe in the spirit of  
how we deem you  
newsprint exploiter  
we all get lonely  
i guess your portfolio did too

a good fire celebrate  
a far call can't erase  
follow it out

let's burn it out

with a quick fix stare  
they tell us to be obscene  
they don't care who believes

ears pinned back  
we've travelled far  
looks like we got ourselves an interpreter  
and it's time to imitate  
being one of a kind  
won't someone celebrate you?  
illegally instate  
the burn  
of a world  
gone down in a flame  
it's our brilliant rise to fame the burden  
of what we thought was a man  
we'll burn your stock down  
we get a sick euphoria  
burn the devil's concubine
