

## Every Kiss

Hot Chocolate

We're driving slow , through the snow  
And this empty ever knew, Is it falso or  
Is i true what i heard about you?  
Silence is killing me now  
How could you? Please tell me how ?

Every kiss, every touch, every single moment  
I will save in my heart, cause I love you baby  
Every kiss, every touch, every single moment  
Makes me feel I'm alive , Cause I love you baby

You don't want me to talk and staring me at far  
Should I stay or should I walk?  
Walk away from feelings  
All I'm asking is love  
How Could you? baby tell me how?

Every kiss, every touch, every single moment  
I will save in my heart, cause I love you baby  
Every kiss, every touch, every single moment  
Makes me feel I'm alive , Cause I love you baby

Every kiss, every touch, every single moment  
I will save in my heart, cause I love you baby  
Every kiss, every touch, every single moment  
Makes me feel I'm alive , Cause I love you baby
