

# The Power Of Love

Hot Chocolate

You were always in my stars.  
You're my destiny.  
Every day I'll share with you,  
Love that's so warm, so sincere.

I knew it was my lucky day,  
When you said hello.  
I knew that love had come my way,  
Lonely nights will be no more.

I believe in the power of love.  
Loving you babe, has made you love me.  
I believe that the power of love,  
Has made you love me.

There were times when I was down,  
Times when I couldn't carry on.

You came along and changed it all.  
Came along and made me strong.

I believe in the power of love.  
Loving you babe, has made you love me.  
I believe that the power of love,  
Has made you love me.

You were always in my stars.  
You're my destiny.  
Every day I'll share with you,  
Love that's so warm, so sincere.

I believe in the power of love.  
Loving you babe, has made you love me.  
I believe in the power of love.  
I believe in the power of love.
