

You'll Always Be a Friend

Hot Chocolate

Is it time for me to go... I don't know
did I hear you say you're not to sure of what we got
anymore

once I had a gentle mood to help me
but that is when I had you here beside me
now it's gone

but in my mind I know with time
When all is said and done
What we had could never end
You'll always be a friend

I can't regret the days I loved being with you
I just can't remember how it slipped away these things
they just do

and if I had my life to live all over
I'd do it all again but make it better
that's what I'd do

but in my mind I know with time
when all is said and done
what we had could never end
you'll always be a friend
