

Bury Your Idols

Hot Water Music

Wake up distant dreamer
Time won't wait for you
Drown your sorrow when the work is done
And the sky has fallen too
Ride your mountain, live for shouting
Pay your moral dues
Don't hold your breath for the peace you wish for
The fight is far from through

Bury your idols

Stand up all you screamers
Let 'em know you're true
Prove your salt and walk the walk
For vision lies in you
Make your moment rise and own it
Hold on to your roots
Of where you battled, where you shattered
How you learned to move

Bury your idols

You're the only one
You're the only one
That'll mobilize your dream

Wake up distant dreamer
Trains won't wait for you
You're in the fight or you're sleeping tight
And bound to follow suit

Bury your idols
Bury your idols
Bury your idols
