

# Angels Of Night

House of Heroes

Sunset on candle road, the stores are closed, the street lamps light up,

We take the long way home and dream of where the night will take us,  
I'll roll all the windows down, let the magic in and I'll float out,  
I've been looking for a way to let it go and let it be ok for now.

Angels of night,  
Hide in the half light,  
Praying for souls like mine,  
If you hear me,  
Angels of mercy,  
Carry me in tonight.

Midnight on Mercy street, where even beggars find a way home,  
We watch the stars explode and laugh about the things we can't know,  
All these questions holding me, I can't answer them, but I still sing  
,  
Maybe the real beauty is love still grows and pain still stings, even  
now.

Angels of night,  
Hide in the half light,  
Praying for souls,  
Lost and found like mine,  
If you hear me,  
Angels of mercy,  
Carry me in tonight.

Sometimes love it hurts so much,  
You never wanna touch the stuff again,  
But baby it's the only way,  
You're never gonna outrun all the pain,  
You're gonna have to face it though,  
Before you let it go,  
Let it go, let it go, let it go, let it go...

Angels of night,  
Hide in the half light,  
Praying for souls,  
Lost and found like

Angels of night,  
Hide in the half light,  
Praying for souls,  
Lost and found like mine,  
If you hear me,  
Angels of mercy,  
Carry me in tonight.  
If you hear me,  
Carry me in tonight.
