

Turn Back the Tide

House of Lords

I saw the future washed away
A hurricane and then decay
But i refused to watch it go

I wont surrender cause i know
We're gonna be the last of a dying breed
We're going to be the kiss of Judas
Unless we're gonna finally

Turn back the tide
Stand my ground
Tomorrows gonna need a hero
Rise up and fly
The time is now
For us to turn back the tide
Turn back the tide
Turn back the tide

We let it happen, let it come
We got to good at playing dumb
But if it start again the same
We're more than only to blame
We gonna be closer to the end of tides ... yeah
We gonna be the final chapter
Unless we're gonna to finally

Turn back the tide
Stand my ground
Tomorrows gonna need a hero
Rise up and fly
The time is now
For us to turn back the tide

We gonna be the last of a dying breed
We're gonna be the kiss of Judas
Unless we're gonna finally ...
Turn back the tide
(Turn back the tide from the fascism)
Before it will be to late
(Stand my ground)
Stand my ground
(Tomorrows gonna need a hero)
Rise up and fight for your future
Stand up and fight for your life
(The time is now)
The time is now for us to turn back the tide

Turn back the tide
Turn back the tide
Turn back the tide
Turn back the tide

I saw the future washed away
A hurricane and then decay
But i refused to watch it go
I wont surrender cause i know...
Turn back the
