

# Change The Man

Howard Jones

Don't talk to me about ban the bomb  
Don't talk to me about who's side I'm on  
Replace the system with one just the same  
Don't you know that we are all to blame

It's so easy as an armchair blamer  
Get off your seat and make a personal change sir  
Can't change the system by smashing it down  
Inside route personal revolution

Change the man  
Rip out the root  
Let's get rid of this insanity

When the mothers had told the kids straight  
When the fathers felt no more hate  
When a man can walk down the street without fear  
Then thing must change and it's not too late
