## **Blah Blah Blah**

Got something to say like something to me well just go ahead and spit it out It's all the same, you see What's that, it doesn't make sense Are you talking in tongues or is your brain out of gear I can hear it rattle in your head I can see you lips move Blah Blah Blah but all I hear is Got something to say Like something to me Well just go ahead and spit it out It's all the same, you see It's coming out better but it doesn't make sense Is that a head on your shoulders or something you use for ornamentation
