

Don't Cry

Human Nature

Sometimes things can get crazy
But that's no reason to go run and hide
I haven't heard from you lately
The days and nights just keep on passing by
Well I guess that it's over
But I have no fear in letting go
I gotta look to the future
It's time to face the music
And make it on my own, so

Don't cry for me baby
I'm operating on a natural high
Don't you cry for me baby
The past is over now
So kiss it goodbye

Don't you stand in my shadow
'Cause when you do I take it personal
I guess it's time to let you go
Can't sit here waiting for a miracle
I gotta get a reaction
(Yeah, yeah, yeah, yeah)
Communication seems to be a no
(no, no)
What happened to the attraction
If I don't get an answer
I think I'd better go so

Don't cry for me baby
I'm operating on a natural high
Don't you cry for me baby
The past is over now, kiss it goodbye

Don't you cry for me
Don't shed a tear for me
I'm gonna be alright
(Alright now)
Don't you cry for me
I'm not in misery
I can't wait

I'm gonna have me a good time

Don't cry for me baby
I'm operating on a natural high
Don't you cry for me baby
The past is over now, kiss it goodbye

So dry your eyes
No need to cry
No time for sad goodbyes
It's time to go
Nothing to show
So baby don't you cry
