

## Don't Clone Me

Huntingtons

my parents think i'm crazy  
some paranormal seed  
they called the family doctor  
he knows just what i need  
they took me to the hospital  
said i'm a moral threat  
they figured out which dna  
would make me function correct

don't clone me (4x)

i layed down on the table  
they said to breath in deep  
i saw my parents smile at me  
before i fell asleep  
they finished the procedure  
and no it wasn't cheap  
but now they can pick which one of me  
that they'd prefer to keep
