

Depends

Hustle Gang

Big face, Seiko watch
Jordan Fours, black and red
Mickey D's side salad
I don't want no Mac-Rib
Dolce 'Bana, Dolce shades
Don't she wanna see the boy?
See the boy, she asked when can she see the boy?

I told her, "it depends, baby"
Depends on these ends, baby
(Na, na na)
"I told you it depends, baby"

(Hey, yea)
She says I might be
Am I? Bitch, I might be
Said, "bitch, excuse me?"
I tried to ask you nicely
If the cost of being wifey starts to get a little pricey
Tell me what you got to spend, baby

I need that spinach, salad, pineapple
LA Fitness, grind sample
LA feels like time travel
Let's get on the plane
Do something that's good for you
When that money good
Don't put that on your social media
You know that shit is lame
I'm a little more conscientious of these internet consequences
I've been in all kinds of trenches
And it's never no condom missing
I say "bitch, I'm active with the prophylactic
Will I take it off one day and try to start a family?"

I don't know, it just depends, baby
Depends on these ends, baby
(Na, na na)
Yea, it just depends, baby

She says I might be
Am I? Bitch, I might be
I said, "bitch, excuse me?"
I tried to ask you nicely
If the cost of being wifey's starts to get a little pricey
Tell me what you got to spend, baby

Tell me, can you handle?
Handle all this pressure
If I pull up on you
Need a little extra
Say if I left my cheese at the crib
We're at the club, can I get the dub?
Can I get that hug and grab your butt
Out in public?
You're trying to split that bill when we're at Publix
It's ugly

Let me be honest with you
I need to feel needed, baby
Don't mean to be condescending
But I need to be complimented

On my big face, Seiko watch
Jordan Fours, black and red
Juggling with my raw vocals
Barely need the ad-libs
Dolce 'Bana, Dolce shades
Don't she wanna see the boy?
See the boy, she asked when can she see the boy?

I told her, "it depends, baby
Depends on these ends, baby
"I told you it depends, baby"

She says I might be
Am I? Bitch, I might be
I said, "bitch, excuse me?
I tried to ask you nicely"
If the cost of being wifey starts to get a little pricey
Tell me what you got to spend, baby
