## Nowhere

Hypnogaja

Run run, my life has got me runnin' On an empty path, too fast for a stop And soon I'm gonna burn 'cause it's comin' my turn And life's lesson I'll learn when I finally drop Now, keep goin' 'cause it's all that I'm knowin' I'm showin' no fear, for fear that the end is growin' I go round for round as I'm puffin' on a pound Take a word from the herb and slow down

I keep on runnin' to nowhere While life is passing me by I keep on runnin' to nowhere No destination in site

Run run, my life has got me runnin' On a two tank bank, no thanks for a buck I got a rebel rhyme for a rebellious mind And a time bomb tickin' in the back of my truck Now, I'm comin' through doin' a hundred and two Out on the highway, my way, whatcha gonna do? You got the rock, but you're ready to drop Take a line from the sign and just stop

No no, turn around, you're going the wrong way I don't know how much more I can take I'm rollin' steady if I'm ready or not I'm embracin' the race, I can't stop
