

# Monsters

## I Am King

This is all we have  
Prepare for the worst  
And let go of all fears  
Don't let it take you in  
To you, who hides  
Who hides behind a mask  
Your disguise is only getting clearer  
So face yourself

Open your eyes and realize  
That the monster inside  
Is all you have to fear

The future lies in the palm of my hands  
Wake me up, 'cause I'm still dreaming  
Even though this world is deceiving

Take the time  
And see these pieces  
Fall into place  
And everything I know  
Has happened for a reason

Open your eyes and realize  
That the monster inside  
Is all you have to fear

We must let go of what we knew  
And stand for what we know is true  
I saw the light  
And let the shadows replace it  
I knew the truth  
But I just couldn't face it

But I can't seem to find myself  
Lost along the chain of memories  
I have made

And there's something behind the clouds  
That we can't see  
All things that once had meaning  
Drag behind me  
We've been living a lie  
We've been living a lie  
A masquerade that will end in destruction  
You've been living a lie  
You're not at all what you pretend to be

When thoughts can only get you so far  
Liar  
Get down on your knees  
And we see the darkness and the light  
Entwine, as the end of the world  
Becomes so clear to me

Open your eyes and realize  
That the monster inside

Is all you have to fear

If you could see my heart

(So face yourself)

You'd see we're all the same

(You're all you have to fear)

If you could see my heart

(So face yourself)

You'd see we're all the same

(You're all you have to fear)

We're all the same
