

Fighting On

I Fight Dragons

I've never been the one to win it all, to be the champion
I always get in my own way
But I get up again each time I fall
I keep on going
I guess that's all there is to mean

But maybe they were right, maybe I was wrong
But I put up a fight and I feel like I'm right where I belong
Cuz if you next to me it's all I really need
And we'll keep fighting on, we'll keep fighting on
We'll keep fighting on long after the rest has rapt and gone
We'll be fighting on, we'll keep fighting on

Every morning I remind myself I don't know all the answers
I gotta learn if that's ok
And slowly turning in to someone else as I get older
Someone how I'd rather be

But maybe they were right, maybe I was wrong
But I put up a fight and I feel like I'm right where I belong
Cuz if you next to me it's all I really need
And we'll keep fighting on, we'll keep fighting on
We'll keep fighting on long after the rest has rapt and gone
We'll be fighting on, we'll keep fighting on

Maybe they were right, maybe I was wrong
But I put up a fight and I feel like I'm right where I belong
Cuz if you next to me it's all I really need
We'll keep fighting on, we'll keep fighting on
We'll keep fighting on long after the rest has rapt and gone
We'll be fighting on, we'll keep fighting on
We'll keep fighting on
We'll keep fighting on long after the rest has rapt and gone
We'll keep fighting on, we'll keep fighting on
We'll keep fighting on, we'll keep fighting on
We'll keep fighting on long after the rest has rapt and gone
We'll keep fighting on, we'll keep fighting on
