## **Upon A Rivers Sky**

## I Killed the Prom Queen

Rebellion of a drive prince afraid to turn to ask for help Even if you could see through my Falling apart to die why? And even if you could see through my eyes

This time I will not be denied I'm seeing
A better tomorrow this time
I will not be denied, cry, die
Today forever I will not be denied of this fate

Blind, we are all blind

The sixth demon he pulls his strings And he will see (me)

Will acceptance, ever except, ever except me Confirm your blackness, swallow and smile You've killed me now, swallow and smile
