

## A Pod is Waiting

I Monster

Old man, sitting there  
He's so fine, in his chair  
Watching him grow his hair  
It's so long, he doesn't care

He just keeps waiting for the day  
When Mother Earth takes him away  
He just keeps waiting for the day  
A pod is waiting for him  
A pod is waiting for him

Old woman, lying there  
With blue dye in her hair  
Sweet smell of love endured  
It's so strong, it's in the air

She just keeps waiting for the day  
When Father Time takes her away  
She just keeps waiting for the day  
A pod is waiting for her  
A pod is waiting for her  
A pod is waiting for her  
A pod is waiting for her

Old folks, there you go  
There's something that they know  
Count down the days ahead  
Or have fun and stay in bed

They just keep waiting for the day  
When pearly gates show them the way  
They just keep waiting for the day  
A pod is waiting for them  
A pod is waiting for them  
A pod is waiting for them  
A pod is waiting for them

When your time has come, it's come  
What you've done is all you've done  
Now it's gone, yes it's gone  
When your time has come, it's come  
What you've done is all you've done
