

## Lust For A Vampyr

I Monster

In the light of the moon  
When the stars are in bloom  
On a hot night in June  
That's when I call for you

I've been working the whole day long  
Getting older while you stay young  
Give me shelter, the night is dark  
Live forever..

When you meet anyone you can find  
Sink your teeth, your in love for one night  
As you sleep in the day you are mine  
I just want your love, so don't waste my time

Take me now in the dark  
I can't wait, make your mark..

I've been working the whole day long  
Getting older while you stay young  
Give me shelter, the night is dark  
Live forever...

When you meet anyone you can find  
Sink your teeth, your in love for one night  
As you sleep in the day you are mine  
I just want your love, so don't waste my time

By the light of the sun  
I knew your time had come  
I opened the box  
And in just one go, you had gone

When you meet anyone you can find  
Sink your teeth, your in love for one night  
As you sleep in the day you are mine  
I just want your love, so don't waste my time

When you meet anyone you can find  
Sink your teeth, your in love for one night  
As you sleep in the day you are mine  
I just want your love, so don't waste my time
