

She Sucks

I Monster

Night, sleep, I close my eyes
Dark, dream, I see a light
She's near, the girl in grey
Calls me, I lose a day

Don't know why you come my way
Drags me down, deep down
Don't know why you come my way
Drags me down, deep down

Eyes down, she sucks my soul
Sunshine, I'm left to crawl
Moonlight, must die again
So I lose a friend

Don't know why you come my way

Drags me down, deep down
Don't know why you come my way
Drags me down, deep down

Don't know why you come my way
Drags me down, deep down
Don't know why you come my way
Drags me down, deep down

Don't know why you come my way
Drags me down, deep down
Don't know why you come my way
Drags me down, deep down
