The Bradley brothers

From state side
[?] ship to shore
My invention
Can someone build some more?

Now
Is this Franson's machine?
Wow
Is this Franson's machine?

The Bradley's [?] to make new machines
With some spells and know how

They turned his contraption into the Mellotron

Now

Now everyone wants one
From B to the queen
But Franson and his tale
Are not what they seem
They're not what they seem

And you have the Chamberlin
Now we have the Mellotron
