

The Zenith Anniversary Stab

I Set My Friends on Fire

It's like it's your first hit
Take a deep breath
I'm like a witch
I'm always stoned to death

Can't count all
The crepuscular
Days we burn

Can you ask it to go
Hang somewhere else
Specter, collector
Of the dim
Can you ask it to go
Hang somewhere else
Specter, collector
Of the dim
Why won't it go?
Ask it to leave
Specter, collector
1 out of 1
You [?] 2 to pass
Sorry, you are perfect
You don't qualify

I'll trade my skylarking theories for
Your antediluvian abilities
I don't have any as long as I
Spend it all on my dependencies

I'll trade my skylarking theories for
Your antediluvian abilities
I don't have any as long as I
Spend it all on my dependencies

I'll trade my skylarking theories for
(Just because we're filming here)
Your antediluvian abilities
(Doesn't mean it'll benefit your career)
I don't have any as long as I
(Just because we're filming here)
Spend it all on my dependencies
(Doesn't mean it'll benefit your career)

Can't count all
The crepuscular
Days we burn

Don't give out to it
If it doesn't to you
In return

This isn't my dust
I'm holding it for a friend
You can't hide it all you want away from me
But you don't have to pretend

This isn't my dust
I'm holding it for a friend
You can't hide it all you want away from me
But you don't have to pretend

All matters ending
How condescending
All matters ending
How condescending
Palm reading fair is canceled
Due to unforeseen circumstances
Tin foiled again!

I didn't see you come in
Cumming is one of my
Favorite things to do
That's no longer my throne
I'll just lie here on this stone
Slow day? Make your own emergencies
Slow say? The freeze is here, we miss the trees

The biographer can't even
Write down his own thoughts
Come on man, look at the level that we're thinking on!
Make a left, when you get to the right, stop
Make a left, when you get to the right, stop
Make a left, when you get to the right, stop
Make a left, when you get to the right, stop
