

## Too Late Now

Icehouse

Just give me the sign  
And I'll be walking out that door  
Don't want to remember this  
The way it was before  
As the rain falls on the ocean  
And the desert feels the sign  
We let it die here  
Let it slip right through our hands

It's too late now  
Too late to love, too late to cry  
So don't look back  
Another place, another time  
Too late now  
To start again, to wonder why  
Too late now

Just give me the word  
Though it may be so hard to sing  
Just give me a reason  
Why it had to end this way  
Steady holding onto nothing  
Like a child, yeah, like a fool  
Though you've God, I won't forget  
It's the only thing I know  
Just give me the sign
