

Call Me Alive

Icon for Hire

(Take it away!)

Come call me alive
Your heart carries mine
Don't leave me to die
Alright
Come call me alive
Your heart carries mine
Don't leave me to die
Alright

I shouldn't have let them have me, now it's too late for regrets
Will I ever learn, or am I doomed to burn?
I keep tasting it, I keep choking

Take my water, take my oxygen
They never could help me, I'm left just as empty tonight

Come call me alive
Your heart carries mine
Don't leave me to die
Alright
Come call me alive
Your heart carries mine
Don't leave me to die
Alright

I can't give in to madness
And let them numb me over
They wait to weaken me, and take me piece by piece
I'm poised for the kill, don't dare swallow

Take my water, take my oxygen
They never could help me, I'm left just as empty tonight
I will stop at nothing less than You
Ruined me, You've ruined me, nothing else moves me

Take my water, take my oxygen
They never could help me, I'm left just as empty tonight
I will stop at nothing less than You
Ruined me, You've ruined me, nothing else moves me

Promise me You'll hunt me down
Or it's torn for now
I have come unwound without falling
Promise me You won't back down
Come call me alive, come call me alive

Come call me alive, come call me alive
Come call me alive, alright
Come call me alive, come call me alive
