

Slow Down

Icon for Hire

Take me all the places that we used to go
The starlit city, our make-shift home
I'm not scared to hold your hand
On the streets of our own land

Slow down, just breathe,
All we have is all we need
Slow down, just breathe,
All we have is all we need

We don't have a dollar to our name you know
But you've never seen me smile this big before
(I am lost here, I am lost with you)
And I'm not scared to lose it all
When all I've got is beautiful
(I am lost here, I am lost with you)

Slow down, just breathe,
All we have is all we need
Slow down, just breathe,
All we have is all we need

Tomorrow holds no promises
Except the ones we've made
We'll go far with hearts like ours
'Til then we've got today

Slow down, just breathe,
All we have is all we need
Slow down, just breathe,
All we have is all we need
Slow down, just breathe,
All we are is all we dreamed

(I am lost here, I am lost with you)
And I'm not scared to lose it all
When all I've got is beautiful
