## Watch Me

## Icon for Hire

Watch me get it get it wrong at the top of my lungs While you front for every one, while you tip toe for fun I can scream until your ears bleed, you're gonna never hear me You hear what you want, but you never wanted me

Careful, you don't wanna mess up, do you?

Fake brave face, I see right through you

Standing in place 'cause

Denial is the way to go, at least that's what you told me, so

Cover you ears when you don't wanna know

For whatever you hear you're held responsible

Are you scared you might open your mouth And feel the horror if nothing comes out? Do you think you're safe, frozen in place? Run for cover just in case

I am not afraid to fall
You can watch me lose it all
I'll get it wrong, 'til I get it right
At least I'm making scenes in the meantime

Watch me, watch me
Watch me get it get it wrong at the top of my lungs
While you front for every one, while you tip toe for fun
I can scream until your ears bleed, you're gonna never hear me
You hear what you want, but you never wanted me

All eyes on you, we're watching you
It's too bad you're too stuck to move
Too bad you wouldn't know what to do
If the right thing walked right up to you
It's none steps forward, none steps back
No harm, no foul, you play like that?
Your game sucks, you need a new one
Your game sucks, make a new one up
Up the ante, up the drive,
Slow down - is this how you feel inside?
Torn in the middle like you can't decide,
Can't step up to save your life
I'm calling it, you're full of shhh
More scared to make noise than you care to admit

Are you scared you might open your mouth And feel the horror if nothing comes out? Do you think you're safe, frozen in place? Run for cover just in case

I am not afraid to fall
You can watch me lose it all
I'll get it wrong, 'til I get it right
At least I'm making scenes in the meantime

Watch me, watch me

No time left to play it safe, no time to bend The worst mistake you'll ever make is trying to blend Are you scared you might open your mouth And feel the horror if nothing comes out? Do you think you're safe, frozen in place? Run for cover just in case

I am not afraid to fall
You can watch me lose it all
I'll get it wrong, 'til I get it right
At least I'm making scenes in the meantime

Watch me

Watch me get it get it wrong at the top of my lungs While you front for every one, while you tip toe for fun I can scream until your ears bleed, you're gonna never hear me You hear what you want, but you never wanted me
