Icons of Filth

Realise death 'cos death is real
Or it'll be too late
If you don't fight this death
This death you create
As the fireball expands & begins to rise
As the fireball expands & begins to rise
Our moulded stupidity horribly seen through burnt out
eyes
As the fireball expands & begins to rise
A nuclear holocaust
A sight for sore eyes
See the children's eyes, hear the peoples cries
As the fireball expands & begins to rise
