

## The Plan

Illdisposed

Uncertainty - belongs to me  
The way it feels - confirming it  
Inspired mist - enfolds the land  
The devils plan - now unveiled

Fire, burning down our souls, we crumble  
Evil, starting to take toll, on me  
Mortal, will forever die, tonight  
You show, a hellish force of might, seance

The poles have been reversed, you look alive

Liar, you deserve my worst, beating  
Crying, empty out your heart, dripping  
Make out, tell me how I feel, endless  
Remain, stay here in the light, forever

Talking, spitting out my words, hurtful  
Inner, visions left for god, anger  
Army, fighting on my side, battle  
Calling, cutting through my sight, simple

I have no feelings here at all, you feel alive  
No one remembers my embrace, not at this time

Seeking words of wisdom, joining minds  
Expiring system, hands of time

Uncertainty - belongs to me  
The way it feels - confirming it  
Inspired mist - enfolds the land  
The devils plan - now unveiled
