Your Darkest Son

Illdisposed

Pushing my way to the end Gain nothing less then a smile All the depressive and sick Completing your lies

Burning the face of your hate Placing the coffin at hand All you can do is to dig Eating away

You turned the lights out? Unholy ways to fall Your darkest son i am

Ripping the evil inside Those who will walk behind Moving ahead to decline Helpless & Lost

Leading the way of the weak Taking your will by my hand Taker of innocent life Spilling the blood

Who turned the lights out? Unholy ways to fall Your darkest son i am
