

## Your Own Best Companion

Illdisposed

In control I never was  
That would take another year - with you  
But I don't have any more time  
I'm on my way out your door - it'll never last

And I'm going down  
Don't care at all  
I see you burn in hell  
Burn - I'll see you burn

It's like a fantasy outlived  
Burn your way alone  
Your own best companion  
It's all you where

Take care  
Take care and burn

To smart to notice anyone else  
Involved in nothing but yourself  
And yet again so short on knowledge  
Guess your brain went away with apathy

Burn Burn Burn Burn

And I'm going down  
Don't care at all  
I see you burn in hell  
Burn - I see you burn burn
