## **Almost**

## **Ilse DeLange**

My head's full
My soul's on fire
Relentless you made me cry

When you tore a hole in my heart And you broke me down part by part

You crashed into me You crashed into me I need you to leave Just get up and up leave

I almost surrendered You almost made me believe Feel like i'm picking up pieces Looking in places i can't reach We sat on the sun and you blinded me Almost

Your footprints
Are everywhere
The scars here
Will they repair

Did you aim for me to break your fall Nothing i said could make you stop

You crashed into me You crashed into me

I almost surrendered You almost made me believe Feel like i'm picking up pieces Looking in places i can't reach We sat on the sun and you blinded me Almost

You crashed into me You crashed into me You crashed into me You crashed into me

I almost surrendered You almost made me believe Feel like i'm picking up pieces Looking in places i can't reach When you crashed into me

I almost surrendered You almost made me believe Feel like i'm picking up pieces Looking in places i can't reach We sat on the sun and you blinded me Almost
