

# Kisses in the Dark

Imany

Gimme some kisses in the dark  
In the dark, in the dark  
I wanna feel your breath in my back,  
in my back, in my back

I wanna fix your broken smile  
And I love, and I learn, and I laugh, and I try.  
I even lie, and no one knows  
That you may go I don't  
Way up high over the rainbow  
I don't see any lullabies

I wanna sing along the guitar  
The guitar, the guitar  
Playing music loud in the car  
In the car, in the car  
I wanna find the perfect rhymes  
You love, you learn, you lie, you try  
You even lie

Now I know that you may go  
I don't wanna face the change  
Way up high over the rainbow  
I don't see any lullabies

Now I know that you may go  
I don't wanna face the change  
Way up high over the rainbow  
I don't see any lullabies

I wanna say  
I wanna say

Now I know that you may go  
I don't wanna face the change  
Way up high over the rainbow  
I don't see any lullabies

Now I know that you may go  
I don't wanna face the change  
Way up high over the rainbow  
I don't see any lullabies

Give me some kisses in the dark  
In the dark, in the dark
