Suicide Song

Impaled Nazarene

Your life sucks so much it is not even true
You have fucked up everything you had
Face the consequence of your mistakes

You have smoked yourself into a blackhole

Walls close in you see only darkness
Veins are bursting you cannot breath anymore
Reality strikes you know the solution

You have smoked yourself into a blackhole

So sing along to the suicide song
Blow up your brain do it today
So sing along to the suicide song
Hang yourself high be a man for once
Give up hope for there is no hope
All dead and gone just give it up
Your life is miserable cul-de-sac
There is a way out sing the suicide song

You have smoked yourself into a blackhole

So sing along to the suicide song
Blow up your brains O.D. today
So sing along to the suicide song
Goodbye cruel world smileys and razorblades
