

God Is She

In This Moment

I am the God and the devil around you
I am the heaven and the hell you crave
I am the queens and the kings that you bow to
I am the name written on your grave

I am the sun that you bask and you feed on
I am the moon that you howl to
I am the day dream bringing faith and conviction
I am that nightmare you've been crawling through

So watch as I set fire to everything
Watch as I burn down everything anything
Watch as I destroy you
Watch as I turn into God
Watch as she - Watch as she turns into me

I am the righteous, the touched and holy
I am the voodoo that you want to believe
I am the angels that hold and surround you
I am the demon you're afraid to need

I am the temple that will bless and feed you
I'm the religion keeping you in chains

I am the cure that you pray will find you
I'm the disease running through your veins

So watch as I set fire to everything
Watch as I burn down everything anything
Watch as I destroy you
Watch as I turn into God
Watch as she - Watch as she turns into me

God is She
God is She, She is God
God is She, She is God
God is She, She is God
God is She, She is God

Watch as I set fire to everything
Watch as I burn down everything anything

Watch as I set fire to everything
Watch as I burn down everything anything
Watch as I destroy you
Watch as I turn into God
Watch as she - Watch as she turns into me

God is She, She is God
God is She, She is God
God is She
