

If this ain't love
I guess I'll never know it even if I were as blinded by the light
If this ain't love
I guess I'll never know it even if it were a, give me back my sight
I will crave you tonight, I will crave you, come tomorrow
I will crave you for always, time brings me to the truth
And the truth brings me back to you, back to you
If this ain't love
I guess I'll never know it even if the thunder strikes me down tonight
If this ain't love
I guess I'll never know it even if you kiss me in the broad daylight
I will crave you tonight, I will crave you, come tomorrow
I'll crave you for always, time brings me to the truth
And the truth brings me back to you, back to you
I will crave you, crave you, I will crave you
(If this ain't love, ooh, oh)
Crave you
(If this ain't love)
I will crave you
(Crave you, crave you if this ain't love)
Crave you
(This ain't love, oh)
I will crave you
(This ain't love, crave you, yeah)
Crave you
(This ain't love, this ain't love)
