## **Stone Cold Heart**

Incognito

All along, you did nothing wrong Still I'm missing something strong And I feel I don't belong, Oh no What should I do? But tell the truth

'Cause it's been eating me away And I'm burning just to say That we can't go on this way, oh no What should I do? What can I do?

And now I wish that I Could give you more, than a stone cold heart I wish that somebody would have told me Then this would have been unnecessary You're asking me why, but I just can't lie You gave me more, than a stone cold heart In a million years I never, ever thought we'd have to end this way

Now we've come this far and we Find it hard to just be friends, and it's better if we end this way I don't wanna lead you on no more
