

Rise Up

Infected Mushroom

You gotta rise up, you got a second chance to dance
You gotta rise up, oh, revenge is sweet, it is in your feet
You gotta rise up, show 'em how we roll, on the dance floor
You gotta rise up, like a phoenix through the flames

You gotta rise up, that's how you get on top, that's how you stay on top

You gotta rise up, when they eliminate, you gotta levitate
You gotta rise up, when they give you pain, you gotta up the gain

You gotta rise up, like phoenix through the mother fucking flames

Now take your things, come let's go

Where no one has gone before

I'll see you out there on the floor

And everyone wants some more

You gotta rise up, you got a second chance to dance

You gotta rise up, oh, revenge is sweet, it is in your feet

You gotta rise up, show 'em how we roll, on the dance floor

You gotta rise up, like a phoenix through the flames

You gotta rise up, that's how you get on top, that's how you stay on top

You gotta rise up, when they eliminate, you gotta levitate

You gotta rise up, when they give you pain, you gotta up the gain

You gotta rise up, like phoenix through the mother fucking flames

Now take your things, come let's go

Where no one has gone before

I'll see you out there on the floor

And everyone wants some more
