

# 1000 Colours

Infernal

When you're Monday morning mine  
It's great, sure  
When potential is combined  
We'll find that rainbow  
There's a place for every kind  
Knowing it's right here  
You can put it on my line  
We're a

Team and we can lift you up  
Lean on your [?] sister and brother  
Nobody's wrong, that's right  
We belong with 1000 colours

And we could use what you've got  
We didn't say we could not  
We know you've got it  
And you know we'll need it  
So everybody welcome  
Go grab a hand of someone  
With 1000 colours  
With 1000 colours  
With 1000 colours

I believe that what we do  
Has value  
So determined we can grow  
And find that rainbow  
Should I once forget our thing  
[?] I'm sorry  
Better trust me when I say  
We're a

Team and we can lift you up  
Lean on your [?] sister and brother  
Nobody's wrong, that's right  
We belong with 1000 colours

And we could use what you've got  
We didn't say we could not  
We know you've got it  
And you know we'll need it  
So everybody welcome  
Go grab a hand of someone  
With 1000 colours  
With 1000 colours  
With 1000 colours

Colours  
1000...

So people get up  
Yeah this is it, that's right  
You've heard [?]  
Let's get to work people

And we could use what you've got

We didn't say we could not  
We know you've got it  
And you know we'll need it  
So everybody welcome  
Go grab a hand of someone  
With 1000 colours  
With 1000 colours  
With 1000 colours  
With 1000 colours
