

# Downtown Boys

Infernal

My feet can run  
While I'm lying down  
I'm flat on the ground  
It's such a race  
To be saving time  
For later on

Go there, get that, try to never get sad  
Feel me, really, am I not important?  
In out, up down always and eternally

Downtown boys will fancy up-town girls  
Time is running, figure it out  
Make some noise 'n better make it loud  
You're waiting for the life that you want

Little bright lights  
Here for just a minute  
Little bright lights are we  
Little bright lights  
Here for just a minute  
Little bright lights are we

Sometimes I dream  
I am still a child  
That never grew up  
Then I awake  
Feeling sad, it's gone  
But why?  
What do I seek?

Bad days, bad ways I was always upset  
Time gone, long gone and I tend to forget  
Past tense, no sense, but I like my present me

Downtown boys will fancy up-town girls  
Time is running, figure it out  
Make some noise 'n better make it loud  
You're waiting for the life that you want

Little bright lights  
Here for just a minute  
Little bright lights are we  
Little bright lights  
Here for just a minute  
Little bright lights are we

Downtown boys will fancy up-town girls  
Time is running, figure it out  
Make some noise 'n better make it loud  
You're waiting for the life that you want

Little bright lights  
Here for just a minute  
Little bright lights are we  
Little bright lights  
Here for just a minute

Little bright lights are we

Little bright lights  
Here for just a minute  
Little bright lights are we  
Little bright lights  
Here for just a minute  
Little bright lights are we
