00 0 000 It's You

How do you feel? He likes you
You heard his confession yesterday
I Need U Only You

I couldn't sleep all night
I'm afraid that you'll leave me
Will you turn your heart and come back to me?

We've protected this love
I can't let you go like this
You still make my heart race

Don't leave me, I'm going crazy
Don't go, I can't take it anymore
There is no guy who will love you more than I do
Remember,
I will watch over your side
To me, it's you, it's you

Rain is falling and
I ran to your house
Will you turn your heart and come back to me?

We've protected this love
I can't let you go like this
I keep having dreams that you'll leave me

Don't leave me, I'm going crazy
Don't go, I can't take it anymore
There is no guy who will love you more than I do
Remember,
I will watch over your side

To me, it's you, it's you

I won't ever let you go, I want to hold you in my arms
I won't ever lose you again

Don't leave, what about me?
Don't go, I will hold onto you
I don't wanna be a fool who regrets after I lose you
Remember,
I will watch over your side
To me, it's you, it's you
