Being Me

Information Society

Holding me
So slowly, for so long
Holding sleep
In half-wakeful joy

Breathe to me
I hear your every sound
The water from your lungs
Becomes a part of me

Everything you were
It was just me
It was just me
Being me

Walk with me
Through the rain
Smile at me
Ignore tomorrow's pain

Dance with me
Through silent, empty halls
Hear with me
Our music, it was all

Everything you were
It was just me
It was just me
Being me

Everything we had
It was just me
And it was you
In different worlds

Everything you were
It was just me
It was just me
Being me

Everything we had
It was just me
And it was you
In different worlds
