Down in Flames

Information Society

Come a little close to me and tell me what you see
Can you feel it, can you feel it? The pain inside of me
You keep asking questions though the answers let you down
I'm a circle, you're a circle, we go round and round and round

When I'm with you, I can't be tamed
When I'm with you, we go down in flames

The thing that makes me act this way is my insecurity
I can feel it, I can feel it, in your vicinity
Silently you're looking at me, staring at a screen
I'm a picture, just a picture with no sound, no sound, no sound

When I'm with you I can't be tamed
When I'm with you we go down in flames
